

Erem Pneumatic Cutter 1500 BSF

The Erem 1500 BSF is a small precise pneumatic cutter. It replaces the former Erem 1500. Due to a new construction and new manufacturing techniques the 1500 BSF has been improved in quality and reliability whereas the price has been cut.

The improved cutting heads are now even more reliable (over 1 Mio. cuts) but less expensive. The variety of the cutting heads makes this tool versatile e.g. for cutting conventional components as well as small ductile or plastic parts.

Cutting Heads for 1500 BSF :

Side Cutters

Round Head

Model	Blade Length	Head Width	max. Cu	Cut
1512 N	10 mm / .394	10,5 mm / .413	1,6 mm	
1522 N	10 mm / .394	10,5 mm / .413	1,6 mm	

Tapered Head

Model	Blade Length	Head Width	max. Cu	Cut
1522 NA	10 mm / .394	10,5 mm / .413	1,6 mm	

Relieved Head

Model	Blade Length	Head Width	max. Cu	Cut
1522 NB	10 mm / .394	10,5 mm / .413	1,6 mm
